Subject: RE: FYI Meeting Tomorrow

Thank you Johnsie.

No EPA. We're missing a great opportunity to frame the discussion and reach out to folks in this affected community.

Andy

Subject: FYI Meeting Tomorrow

Cape Fear River Watch is hosting a Community Forum tomorrow (6/21) on GenX. Here's the press release. Lots of really good speakers lined up.

Cape Fear River Watch Assembles Community Forum on GenX

Chemours' private, closed door, meeting with government officials and CFPWA left everyone with more questions than answers. Cape Fear River Watch is assembling a panel of environmental and health stakeholders and professionals on Wednesday, June 21 from 6:00PM - 8:00PM at the Coastline Convention Center located in downtown Wilmington for a Community Forum to address public confusion and concern.

Former Wilmington mayor, Harper Peterson, will moderate this discussion. The following professionals and educators have signed on to give public statements and answer questions regarding emergent contaminants in our shared water supply:

1. Dr. Lawrence Cahoon, PhD professor UNCW (biological oceanographer)◆
2. Dr. Susanne Brander, PhD professor UNCW (ecotoxicologist)◆
3. Kemp Burdette, Cape Fear Riverkeeper◆
4. Adam Wagner, StarNews reporter (only reporter invited to Chemours' meeting).◆
5. John F. Green II, attorney◆
6. Dr. David Hill, M.D. pediatrician at Kidz Care Pediatrics◆

Efforts are underway to form a coalition of citizens, community stakeholders, professionals, and educators called Clean Cape Fear. Find us on Facebook: @CleanCapeFear to partner with us or follow our efforts.

Cape Fear River Watch, a 501(c)3 nonprofit organization, has been working to protect and improve the water quality of the Lower Cape Fear River Basin through Education, Advocacy, and Action since 1993. Cape Fear River Watch engages residents of our watershed through programs to preserve and safeguard our river. Our Cape Fear Riverkeeper is a member of the Waterkeeper Alliance, an international clean water advocacy organization.
